

Work in pairs. You are going to take it in turns to ask each other questions about the future. You must talk for 30 seconds without hesitating or repeating yourself.

Without looking at the worksheet, Student A chooses a number between 1 and 20. Student B asks him / her this question, then crosses it out. After Student A has spoken for 30 seconds, Student B chooses a different number and Student A asks him / her the question. Continue until there are no more questions.

-
1 If you go to university, what will you study? Why?
.....
- 2 What are you going to do after school today?
.....
